BIOLOGY

**3**
YEARS
DEGREE COURSE

**CHRONOLOGICAL
ACCESS**

**COURSE IN ITALIAN**

**CLASS L-13**

The degree course includes activities aimed at the acquisition of theoretical foundations and adequate operational elements with regard to: the biology of microorganisms, plant organisms and various animal species including man, at the morphological, functional, cellular and molecular level; mechanisms of inheritance and development; the presence and effects of living beings in the environment.

Adequate knowledge of mathematics, statistics, computer science, physics and chemistry as well as biological laboratory skills is expected.

The course includes a final practical work internship to be carried out in university or non-university facilities under the guidance of a tutor.

YEAR OF ENROLMENT

CURRICULUM

How the programme of study works

The list of courses in the programme of study represents the set of train can be envisaged for each of the years of which the course of study con according to the year in which the student enrolls. Free or restricted-cho optional learning activities that students may include in their programm according to the choice criteria specified on this page; the remaining sul compulsory for all students.

The programme of study must be submitted online by the student for e ESSE3 system (see dedicated section).

Students are allowed to submit their own programme of study with opti those presented on this page (and available in ESSE3), as long as it is cor achieving the course's educational objectives. In that case, the plan must be submitted to the Course Council for approval.

Crediti per attività di libera partecipazione

L'Ateneo riconosce agli studenti e alle studentesse dei corsi di studio che ne fanno richiesta crediti formativi universitari per le attività di libera partecipazione, ovvero attività svolte in **ambito sportivo, culturale e sociale** che comportino il coinvolgimento dello studente nel contesto operativo presso il quale si svolgono le attività.

[Crediti per attività di libera partecipazione](#)

Compulsory training on safety in the workplace

Students on the degree course are obliged to take the course on safety in the workplace.

Soft Skills – Attività didattiche trasversali

Si tratta di **attività formative** finalizzate a fornire allo studente un primo bagaglio di conoscenze, abilità e qualità che entrano in gioco quando si deve tradurre una competenza in comportamento, rispondendo ad un'esigenza dell'ambiente organizzativo, nonché ad implementare e migliorare lo sviluppo delle cosiddette **soft skills** per una maggiore integrazione nel mondo del lavoro.

31/07/2026

from **24/08/2026** to **25/09/2026**

Study at the Department SCVSA

Each Degree programme provides a curriculum in which the courses are grouped into three categories:

- compulsory;
- non-compulsory within a group indicated by the Faculty;
- chosen by the student.

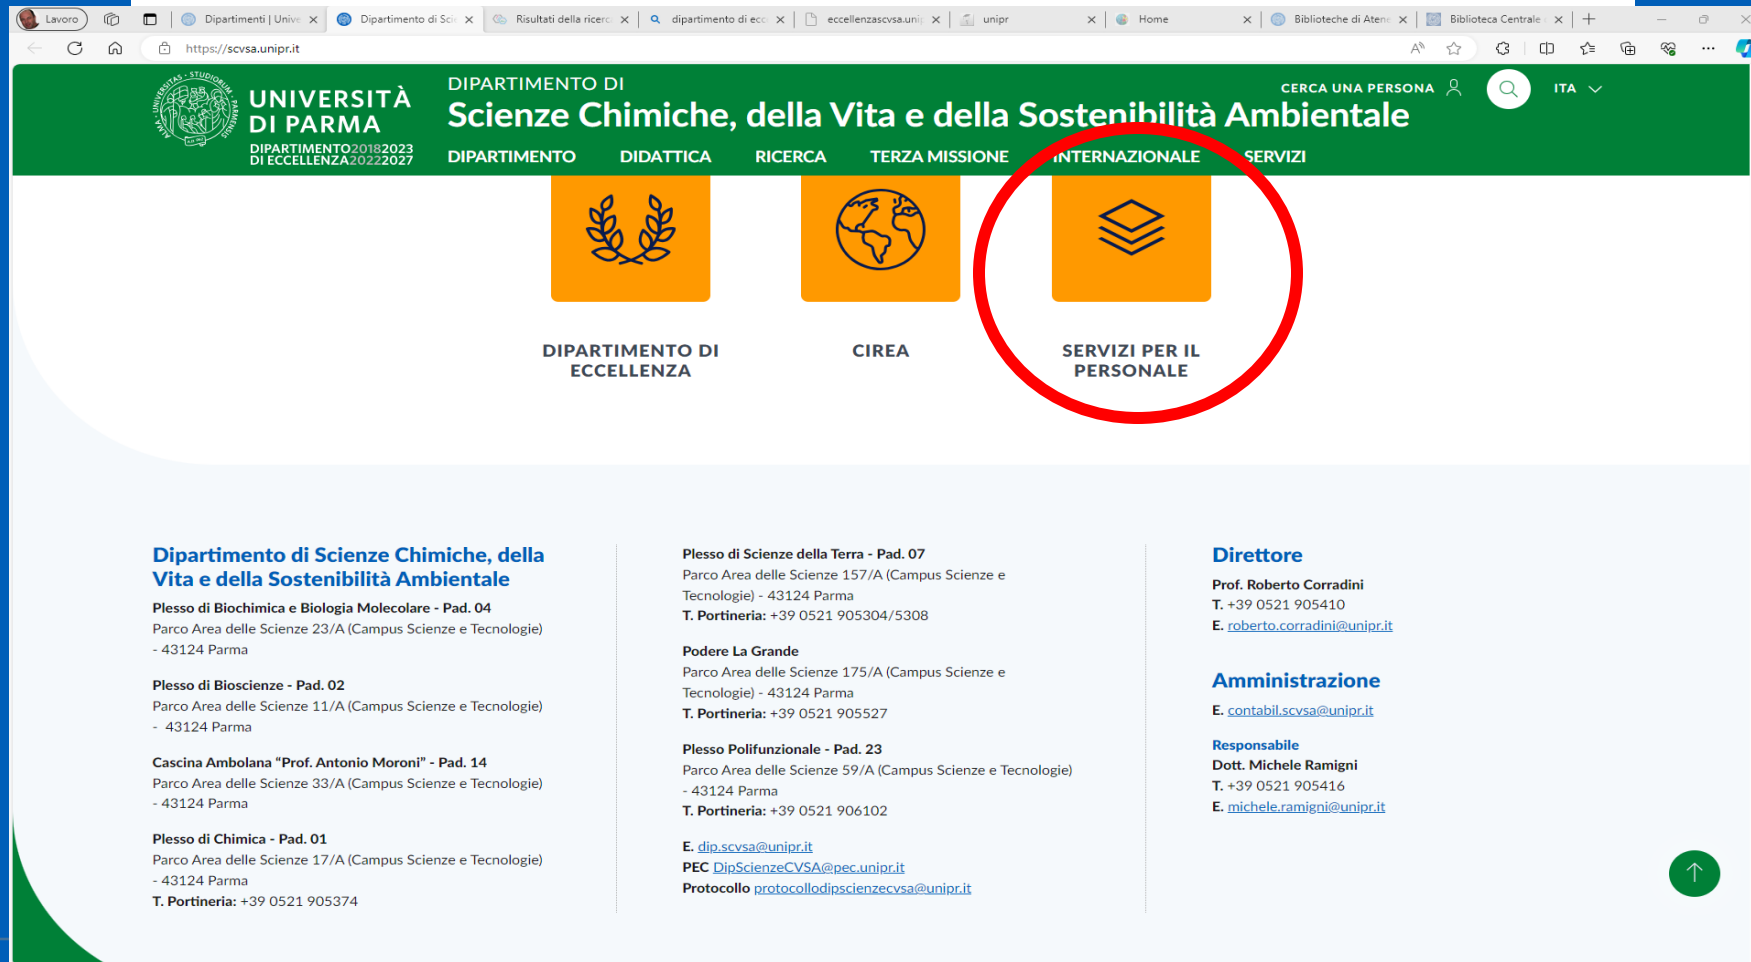

The number of exams depends upon the number of credits you need: you can reach the **60 credits - ECTS per year**.

Most of the exams provide **6 ECTS per exam**.

Study at the Department SCVSA

How to find course unit's materials (slide, notes, video, ..)?

A photograph of a person sitting on a high bookshelf in a library, reading a book. The person is wearing a light-colored long-sleeved shirt and dark trousers. The bookshelf is filled with many books, and the background shows more shelves and a bright light source.
